Neuroscience Club

The Neuroscience Club has been in the trial phase since 2010 and is looking to receive full recognition. They have 116 members, 40 of which are sophomores and first years. During their meetings they discuss the neuroscience field as well as necessary classes to take and research opportunities at Lehigh. Some of their past events include professor talks, volunteering for the Biofair hosted by the biology department, and going to Broughal Middle School to teach students about all things neuroscience. In the future they plan to keep up with their current activities, get neuro-engineering professors and neurosurgeons/neurologists to speak, and collaborate with the psychology club. They believe their club opportunities will expand with full recognition from Student Senate.

*It is the recommendation of the Club Affairs Committee that Student Senate XXIX accept the full recognition Neuroscience Club.*

**APPROVED**
