Group for Gender Equality in Leadership

This group seeks to promote “the presence of women in leadership in all aspects of professional and institutional life within the University context as well as to engage in combating societal barriers of gendered marginalization.” This group currently has 20 members comprised of sophomores, juniors, a few first-years. So far this club has held a preliminary meeting and met with their advisor but wanted to wait until recognition before hosting other events. This club plans to have discussion-based meetings including guest speakers, specifically women in the workforce. One of the main goals is to raise awareness about how media and society perpetuate gender stereotypes.

It is the recommendation of the Club Affairs committee that Student Senate XXVIII accept the preliminary recognition for Group for Gender Equality in Leadership.

Status: Approved
