Additional Funding

Organization: LU Electronic Music
Amount: \$250

SSR29AL056- APPROVED

LU Electronic Music is requesting \$250 for a speaker monitor for their events and speaker workshops. They plan to use the speaker in combination with LU Sound and UP in order to receive more future funding from these two organizations. The Allocations committee recommends funding the full \$250.

Additional Funding

Organization: American Academy of Environmental Engineers
Amount: \$100

SSR29AL058- APPROVED

AAEE is requesting \$200 for their annual research day in STEPS. This event will provide attendees with tours of the STEPS research labs as well as the opportunity to network with professors and research assistants. The club is planning to use these funds for hors d'ivoire's at the end of the event (about 4 o'clock). Allocations has voted to fund \$100 of the \$200 request, which we believe will allow the club the necessary funds to hold the event. Should they wish to have their more extravagant food items, we recommend reaching out to outside sources for funding.

Additional Funding

SSR29AL059- APPROVED

Organization: LU's finest step team
Amount: \$500.00

LU's finest step team is requesting funds to provide transportation and lodging for two different dance competitions on March 25th and April 21st. The club will be paying for food and other miscellaneous costs out of pocket and have already received funding from the student opportunity fund and office of multicultural affairs. The request is fully allowable and allocations voted to fund the request in its entirety because the club has received extensive funding from other sources and these events directly align with the club's mission.

Additional Funding

SSR29AL060- APPROVED

Organization: Dancin'
Amount: \$800.00

Dancin' is requesting \$800.00 for their dance classes in March and April. Last year, the club received \$2,300 in funding for the instructional classes. This year Dancin' has only received \$530 in funding. Being as this club is using Senate funds very efficiently with the new funding system, for events that specifically mirror their goals and missions, allocations recommends funding the fully amount.

Additional Funding

SSR29AL061- APPROVED

Organization: American Academy of Environmental Engineers
Amount: \$25

AAEE is requesting \$25 for their summer experiences in environmental engineering event. The event is intended to educate members of the AAEE and ASCE clubs on potential research and summer opportunities revolving around environmental engineering. Allocations recommends funding the entirety of the event.

Additional Funding**SSR29AL062- APPROVED**

Organization: National Society of Black Engineers
Amount: \$500.00

NSBE is requesting \$500 to send about 20 of their members to the NSBE national conference in Kansas City. The funds being requested are intended to be used for flight and hotel costs which are fully allowable. The club attends this conference annually and receives funding from a variety of organizations around campus to attend. The club has raised money from various department chairs including the college of engineering, office of multicultural affairs, and a corporate sponsor. Because the club is so proactive in their fundraising efforts and we are funding a small portion of the entire event cost allocations recommends funding the entire \$500.00 request.

Additional Funding**SSR29AL063- APPROVED**

Organization: Melismatics
Amount: \$200

Melismatics is requesting \$350 (\$200 of which is allowable), for their ICCA Semifinals competition that they wish to attend later this semester. Allocations fully supports this club and it's goals and recommends funding the full amount deemed allowable.

Additional Funding**SSR29AL064- APPROVED**

Organization: LU Steel Bridge Team
Amount: \$1000
