Additional Funding

Organization: Indian Student Association

SSR28AL025-Approved

Amount: \$200.00

The Indian Student Association requested \$200.00 to cover the cost of Diwali. The total cost of the event was \$4,190.00. ISA has sought out funds from departments ranging from Global Union to the Graduate Life Office and \$200.00 is the remaining cost of the event.

Additional Funding

Organization: Society of Hispanic Professional Engineers

SSR28AL026-Approved

Amount: \$300.00

The Society of Hispanic Professional Engineers requested \$3,000.00 to cover the cost of 12 members to attend a national conference. Academic departments have covered some of the costs for registration fees and hotel expenses. The organization's club funds can cover the cost of attendance but the Allocations Committee believes that \$300 should be funded, allowing the club to continue to host their planned events for the rest of the year.

Funding Appeal

Organization: University Productions

SSR28AL024-Approved

Amount: \$0.00

University Productions was appealing their funding for this year. The Allocations Committee realizes the extent that UP does for the school, but collectively decided that increasing the budget was not necessary at the current time. We recognize that there was a cut in the budget from the past year, but we believe the organization should look into the future instead of focusing on the past.

**This bill was originally tabled

Funding Appeal

Organization: University Productions

SSR28AL027-Retracted

Amount: \$6,500.00

University Productions was appealing their funding for this year. The Allocations Committee had a very productive and intellectual discussion, and we believe that University Productions should be granted their funding appeal to further pursue great events on campus. The primary goal of the Allocations Committee is to fund clubs that provide this campus with a diverse range of events, and taking into account administrative thoughts and fiscal responsibility, the committee votes to amend their original bill and approve the budget appeal.
