Did You Know?

Student Senate will be having a drawing for a $20 gift card to the Goose.

All you need to do to enter is “like” our Facebook page and/or follow us on Twitter @LehighSenate!

Academic Improvement

The Academic Improvement Clip is working diligently to improve the way students can access information pertaining to academics. One project we are currently working on is to provide a webpage with several links informing students about countless topics of academics such as the hours of each building on campus. We are also working on launching a webpage similar to rate my professor, so that students may know information specific to Lehigh about various classes and/or professors before they make a decision on registration. Additionally, we are working to increase the printing quota for students who need to print more than what they are currently forced to work with. The increase in the printing quota will depend on the major each respective student declares.

Community Relations

Community Relations is currently working on a fundraising event with local restaurants in Bethlehem. We’ve contacted several popular restaurants and asked them to donate a portion of the money they earn on a particular night to the homeless shelter in Bethlehem. Community Relations is also looking into a second safety forum this semester, geared towards students who are getting ready to sign their leases. We would once again invite local landlords, police officers, and residents of Bethlehem to inform students of everything they should know about living off campus.

Facilities & Transportation

We are aiming to improve the TRACS system in order to make it more accessible for students late at night. In addition, we are also trying to determine what the future of the bus system will be and how it can possibly be altered. To make it easier for students to know where the buses are, we are discussing the possibility of adding a mobile phone application that will track where the buses are. Also, in an effort to broaden into South Bethlehem, we are seeing if there is an interest in having a bus service that will take students to ArtsQuest. Finally, we understand that there have been concerns from students regarding the increased parking meter fees, and we are in talks to see what the future of this increase will be.

Unity

The Unity Committee has been working on a variety of programs for the entire Lehigh campus. The main goal of these programs is to build a cohesive and inclusive Lehigh community. As part of this initiative, we have been planning a program called the “House Cup,” which will occur at the beginning of every year in order to welcome the first-years into the Lehigh community. Everyone on campus will be incorporated into this event and it will be a great way for the first-years to feel included in the Lehigh community. Another program that we are organizing is a “South Mountain Chef” event with the Global Union, which will bring Greeks, non-Greeks, and administration in a fun-filled cooking competition.

Safety

Recently, the Safety Committee has been working on getting blue lights off campus. We met with Corporal Gallagher, who told us that there is the possibility we will be able to get a blue light system on East Fifth and other locations off campus that are owned by Lehigh. We also are continuing to encourage students to get involved with the Hawks Watch off campus to increase safety for students walking around off campus at night.
