**Funding Appeal**

**SSR28AL022-Approved**

Organization: Biomedical Engineering Society

Amount: \$0.00

The Biomedical Engineering Society was appealing the previous decision to fund them \$200.00 through a revised budget. The organization's budget has increased from years past and the Allocations Committee came to the conclusion that the revised budget requests should not be granted.

**Pre-existing Funds**

Organization: Asian Culture Society

**SSR28AL023-Approved**

Amount: \$500.00

The Asian Culture Society would like to re-allocate \$500.00 to cover the cost of alcohol for Fusion. The event is co-sponsored with the Black Student Union and the prerequisites for funding events involving alcohol have been fulfilled.

**Funding Appeal**

Organization: University Productions

**SSR28AL024-Tabled**

Amount: \$0.00

University Productions was appealing their funding for this year. The Allocations Committee realizes the extent that UP does for the school, but collectively decided that increasing the budget was not necessary at the current time. We recognize that there was a cut in the budget from the past year, but we believe the organization should look into the future instead of focusing on the past.
